SUMMARY

I'm a Informatics Engineering undergraduate student at Telkom University Purwokerto, with strong interest in AI, data, and digital design. Experienced in student leadership and visual content creation. Eager to contribute and grow in a dynamic tech environment and to sustainable and innovative solutions for social and organizational impact.

ORGANIZATIONAL EXPERIENCE

Satria Muda Telkom University Purwokerto

Jan 2025 - Present

- Led a team of PKM PI Reviewers, providing comprehensive feedback to enhance proposal quality for PIMNAS submission.
- Conducted presentations on PKM administrative guidelines, improving student understanding and adherence.
- Led a new team 'Hunter International Competition' (HIC). Disseminated information on competitions, increasing student awareness and participation.

SRE Telkom University

Jan - Dec 2024

- Created engaging visual content for Instagram, including graphic designs and promotional materials, resulting in increased audience interaction.
- Documented live events through photography and videography, capturing key moments and producing high-quality visual assets for promotional purposes.
- Actively participated in event execution, serving as both a staff member and team leader, ensuring seamless event operations.
